
CHURN IS DEAD

The QBR-to-MBR Conversion Audit

A diagnostic tool for CS teams

Evaluate your current quarterly review process and redesign it for monthly execution impact using the Monthly Business Review framework.

Scoring: Rate each item 1-5. 1 = not happening, 5 = embedded in operations.

Version: 1.0 -- May 2026

SECTION 1**Forward-Looking Resource Analysis**

Reviews should identify future resource needs based on current patterns, not explain historical resource usage.

Criteria	What Good Looks Like	What Bad Looks Like
Resource allocation discussions	Next month's capacity needs based on customer behavior patterns	Last quarter's resource utilization analysis
Pipeline risk analysis	Forward-looking support requirements for at-risk accounts	Historical churn trend explanations
Capacity planning	Specific reallocation decisions with timelines	General observations about workload balance

Score This Section

Criteria	Score
Meeting focuses on future resource needs vs historical usage	1-5
Resource decisions get made with specific timelines	1-5
Current customer patterns drive capacity planning	1-5

Your Score: ____ / 5

SECTION 2

Decision Points Identification

Every review should result in specific decisions that require executive input or cross-functional coordination.

Criteria	What Good Looks Like	What Bad Looks Like
Decision clarity	Specific decisions with DRIs and deadlines	Vague action items for 'next quarter'
Executive engagement	Leaders making resource prioritization choices	Leaders asking clarifying questions about data
Cross-functional coordination	Concrete commitments from other departments	General agreements to 'work together better'

Score This Section

Criteria	Score
Each meeting produces specific decisions with owners	1-5
Decisions require executive authority to execute	1-5
Decision timelines align with monthly review cadence	1-5

Your Score: ____ / 5

SECTION 3

Obstacle Inventory & Ownership

Obstacles should be treated as inventory items with ownership and removal timelines, not explanatory context.

Criteria	What Good Looks Like	What Bad Looks Like
Obstacle specificity	Named obstacles with measurable impact	General challenges mentioned as context
Ownership assignment	Clear DRI for each obstacle with removal timeline	Team-level responsibility without individual ownership
Resolution tracking	Obstacle status updated monthly with progress metrics	Same obstacles discussed quarter over quarter

Score This Section

Criteria	Score
Obstacles catalogued specifically with impact metrics	1-5
Each obstacle has individual DRI and timeline	1-5
Obstacle resolution progress tracked monthly	1-5

Your Score: ____ / 5

SECTION 4

Success Metric Projection

Reviews should project next month's performance based on current decision velocity, not analyze last quarter's results.

Criteria	What Good Looks Like	What Bad Looks Like
Projection methodology	Forward-looking scenarios based on current patterns	Historical trend analysis with explanations
Decision connection	Clear link between this month's decisions and next month's outcomes	General correlation between activities and results
Urgency creation	Projections drive immediate resource reallocation	Analysis leads to 'insights' for future consideration

Score This Section

Criteria	Score
Projections based on current decision velocity patterns	1-5
Clear connection between decisions and projected outcomes	1-5
Projections drive immediate resource changes	1-5

Your Score: ____ / 5

CHURN IS DEAD

Your Scorecard

Dimension	Your Score	Max
1. Forward-Looking Resource Analysis	_____	5
2. Decision Points Identification	_____	5
3. Obstacle Inventory & Ownership	_____	5
4. Success Metric Projection	_____	5
TOTAL	_____	20

Total Score	Assessment	What It Means
16-20	Uncuttable	Embedded, measurable, strategically irreplaceable.
12-15	Defensible	Solid but gaps remain. Focus on lowest dimension.
8-11	Vulnerable	Real risk ahead. Treat as urgent.
4-7	Critical	Cannot survive scrutiny. Major changes needed.

What to do next: Take your lowest-scoring section and build a 30-day action plan. One at a time. Then share this with leadership -- not to ask permission, but to show you know where the gaps are.

You can't optimize for both reporting theater and business impact.
